Dhyanmurti ji

Dhyannmurti ji

Under Shri Dhyan Murti Satsang Seva Sansthan -

1. 'Maa Ka Ghar' is being built for those mothers who want to do spiritual practice. And similarly there are plans to build 'Maa Ka Ghar' at many other holy places.

2. Arrangements for free treatment should be made for all the animals that get injured and have no ownership rights across the country.

3. More earth saving & oxygen giving trees, whose number has been very less at this time. We are planting trees all over the country of India.

4. There are many things made from the cow dung (which includes from the making idol of God to the worship of God & in household) to taking them to every home have also dreamed.

5. I have dreamed of seeing India as Vishwa Guru in which I will give contribution as much as I have.

DHYANMURTI JI

I have practically seen many ups and downs in my life. Despite being affluent to live on my own principles, I have also faced poverty and hunger very closely.

I personally consider yoga and meditation to be the biggest base of health. Being happy in every situation is the biggest reason for my physical and mental health. I am happy that our India has given the path of yoga and meditation to the whole world.

My future plan is that the whole world should know that glorified India in which the search of the sages was at its highest. The whole world could know about India before the arrival of robbers & invaders.

It was my childhood dream that I should expose Indian culture to the whole world in the form of Sanatanta, as a saint. Because any person who is in the disguise of a sanyasi, people used to think of it as a pretense. I am happy that I can teach the whole world renunciation, loyalty and prestige by living in the guise of a sannyasi. I can teach you to be happy. By being myself, I present the idea that personal happiness doesn't have to depend on someone else.

Dhyannurti ji

Many times I got support from the people of the world with my thoughts.

I think it is more important if you get more support of a learned person than hundreds of fool. It is only on this thought that I have grown myself and have never allowed myself to be intimidated by the truth or telling the truth. I faced opposition for my ascetic life. How could I break out of the circle of family in the body of a woman? Due to this thinking, I saw a lot of opposition and many times while fighting for my truth, even if the thoughts were not liked by any so called people, then I have faced opposition many times in that too. But if you have the slightest courage to tell the truth, then some opposition has to be endured.

I struggled a lot in my life for education since childhood, could not get school education. But in order to live life, I pushed myself as a seeker of truth.

This is how my life started and today I am happy because I am moving out of the dream world and moving forward on the path of truth.

PERSONALITY

I am Manisha Gaur and I belong to Karnal in Haryana and I am the title holder of Mrs. Tourism Queen Ambassador 2019. My love for the camera and crown in my state enabled me to make a direct entry to the finale of Mrs. India Universal 2019. I was one of the finalists in Mrs. India Universal 2019. I didn't know anything about Mrs. India. I never thought that I would participate in it and compete with other contestants. My sister told me to go for this and I was least bothered to even try. I used to be a teacher but when I went to Mrs. India Universal, that's the place I am so thankful for because then I came to know that I am so beautiful and who I am in my life. It was a life-changing part of me and it was a big task for me to keep my family and kids together and win the title.

Ups and downs of my life -
I used to get nervous when I used to speak and not socialise much ,I came from a small town, it was really hard for me to talk to the other ladies of Delhi and metro cities it was really different compared to what I am from but lately I have made some very good friends and my sisters always motivate me whenever I get nervous they always make me believe that if you are good at something then you should go for it , the other ladies used to wear and were comfortable in western dresses but I was not used to it ,but later I managed to win with traditional dresses.

"when you start feeling the pain ,that's when everything start". I was always a fitness fond person ,I used to attend yoga classes since my school time ,that's why it was not a big deal for me to make my body figure look like model, I used to go for jogging in the morning and do yoga on daily basis and also I used to take care of my diet because to stay healthy and fit nothing is better than a good diet and yoga on daily basis.

Opposition Faced-

Apart from proving my intelligence, talent and pleasing personality as the winner It was a huge moral responsibility and have to maintain a respectable character because I belonged to a rural society ,but then my family and sisters encouraged me to build my self confidence and self esteem ,they encouraged me to only concentrate on self esteem and self confidence ,which is the most essential thing to achieve an achievement.

Dreams

My dream of childhood was to appear on television through news or some other way I wanted to be known by everyone ,this dream of mine came true when I saw my name in H.S.S.C question paper that was the most proud moment of my life .

Manisha Gaur

Now I have started a company with my sister named RD production through which we will connect to singers in India who want to make their carrier in acting , singing etc so that common population of our country get a chance to show their talent to the whole world. Achieve impossible with your hard work working towards your goals can be challenging. Handwork must not limit your personal life when you work hard life will prosper

My future plans -

I want to uplift the women society ,which in our country is considered weak , I want to show this whole world that what women are capable of

A simple goal of mine— My next goal is to receive “naari shakti” award which is given by the government of India .I have to work hard for this award. I think that to fulfil our dreams we should always think positive not negative .because negative thinking can never make us reach our goals . If you are positive about yourself than you can achieve anything you want ,it only depends on your mindset ,so at last you should only focus on actions instead of result
